

## Confidex® Guarantee

### The first and best guarantee

For over 20 years the Confidex® Guarantee from Tata Steel has remained best in class. Confidex® is the product performance guarantee for Colorcoat HPS200 Ultra® and Colorcoat Prisma®, when used in an external conventional building envelope application namely roof and wall cladding using single skin, built-up or composite panel construction in industrial and commercial buildings. Confidex® offers the longest and most comprehensive guarantee for pre-finished steel in Europe.

#### Key features

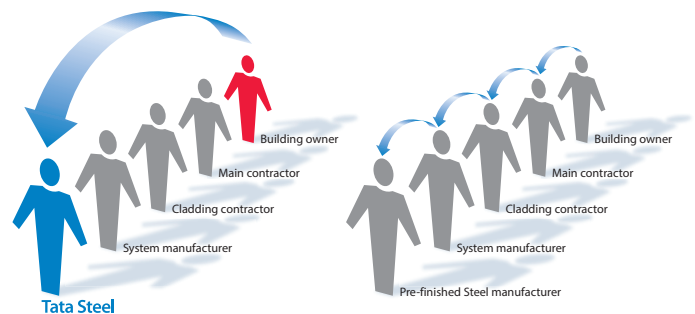

The Confidex® Guarantee is clear and simple and unlike many other guarantees, offers full remedial action in the unlikely event of coating failure.

#### Key features include:

- Extended guarantee cover for up to 40 years on Colorcoat HPS200 Ultra® and up to 30 years on Colorcoat Prisma®.
- Cut edges covered for the entirety of the guarantee period.
- No requirement for any inspections or maintenance to validate the guarantee.
- Backed by years of worldwide product testing.
- Provides cover for roof pitches down to 1° and no distinction between different roof pitches above that.
- Offered directly to the building owner and provides a contractual relationship between Tata Steel and the building owner.
- Is fully transferable should building ownership change.
- Helps reduce the level of risk for each part of the supply chain.
- Quick and simple online registration form.

#### Benefits of Confidex® registration

Usually the building owner, cladding contractor or the cladding system manufacturer can apply for the Confidex® Guarantee. In the unlikely event of a coating failure, we can be contacted directly and independently of the contractual supply chain. In the 'worst case' scenario elements of the contractual chain may no longer be in existence making a complaint difficult or even impossible to pursue without the direct link to Tata Steel.

#### Other warranties

Whilst Confidex® has always been restricted to the weathering performance of the external cladding, we have recognised the growing emergence of demanding internal environment projects, such as energy from waste plants, and may offer a non-Confidex® warranty on a case by case basis for Colorcoat HPS200 Ultra® used internally.

Application specific warranties are also available for non-standard cladding applications; i.e residential roofs, flashings and sectional roller shutter doors.

# Confidex® Guarantee periods for Zone 1 and Zone 2

## Confidex® availability zones

### Notes

1. Figures under the Coastal heading are for buildings within 1 km of any coast.
2. Full terms and conditions of the Confidex® Guarantee are on the online application form, available from [www.colorcoat-online.com/registration](http://www.colorcoat-online.com/registration)
3. Confidex® must be registered within 3 months of the building completion date for the guarantee to be valid.
4. The Confidex® Guarantee periods on the diagram above are applicable to Zone 1 and Zone 2. For more information visit [www.colorcoat-online.com/confidexmap](http://www.colorcoat-online.com/confidexmap)

### KEY

- Northern Europe – Zone 1
- Southern Europe – Zone 2
- For areas outside of Confidex® zones please contact Tata Steel for more information.
